

## Facebook Stocks

A Facebook investor needs some help.

He would like to see a dashboard that updates daily to keep track of FB stocks.

His main priority is to see the following:

1. Most recent open price
2. Most recent close price
3. % change between open and close price
4. Daily close prices

He doesn't have any data but is saying the data is publicly available.

# Facebook Stocks

## Data

You can check the lecture resources or project brief in the course. You can also download it here:

Dataset:

We will create our own dataset on Google Sheets. Make sure you have a google account
